

# She's Taken My Words

Human Nature

Long road ahead, ride on forever  
And the dusty red, can clear away your mind  
There's no need for better

Now she's there, when all of my thoughts are gone  
And the scent of her hair can carry me along  
There's no need for better

Now paperback fairytales  
Are nothing compared to falling for her  
How can I stand and watch her walk away?

When she's taken my heart  
She's taken my soul  
And without my noticing  
She's taken my words

Road goes on and time teaches everyone  
Once love's gone it tears a piece inside  
So how can I leave her?

Paperback fairytales  
Are nothing compared to falling for her  
I'll never turn and let her walk away

(she's taken everything...)

When she's taken my heart  
She's taken my soul  
And without my noticing  
She's taken my words

She's taken my time  
She's touched me deep inside  
And without my noticing  
She's taken my words

I cherish the moment I look in her eyes  
Time on my hands seems to pass like the skies  
I know her heart isn't mine  
Cause she's taken over  
Oohh, oohh

She, she's taken my heart  
She's taken my soul  
She's taken my words

(she's taken everything...)  
...
