

# She

## Human Nature

If I hailed a taxi cab would it  
Send me the right way  
If I had another chance  
would I want to change my life today  
Cause lately I've been thinking  
Is it really worth the ride  
But she's the one that's telling me  
Just to give it one more try  
When I'm lost and just don't know what to do  
She's the voice in me just guiding me through

I'm never gonna leave her she's my friend  
I'm never gonna run away  
To find a better day  
And I'm never gonna tell her goodbye  
She's the reason I'm alright  
I don't need a way to see tomorrow where I'll be  
I could wish for many things  
But the future ain't all up to me  
She's the one I trust in  
Like I trust the beating of my heart  
Never gonna lose my way cause  
I found my guiding star  
When I'm down and just don't know what to do  
She's the voice in me just guiding me through

I'm alright  
She's the reason why

I'm alright  
She's the reason why
