

## You Know

### Human Nature

I got this feelin' baby  
I got this feelin' that you know  
You know you're in love with me  
Help me baby  
I can't believe we're going all this way  
(Tell him face to face)  
I'm your lover  
The man you're with could never take my place  
(Tell him face to face)  
Although I'm not your only one  
No, no

I got this feelin' baby  
I got this feelin' that you know  
I need you tonight  
I got this feelin' baby  
I got this feelin' that you know  
You know you're in love with me

Listen baby  
You know we can't go on just living lies  
(No, no more lies)  
Think it over  
And give me a chance  
Tell him that you're with me tonight  
Although I'm not your only one  
No, no

I got this feelin' baby  
I got this feelin' that you know  
I need you tonight  
I got this feelin' baby  
I got this feelin' that you know  
This love is so right

Lying in his arms it's my face you see  
There's no need to tell me baby  
I know you're in love with me  
I know you're in love with me

I got this feelin' baby  
I got this feelin' that you know, you know  
I got this feelin' baby  
I got this feelin' that you know (You know)  
This love is so right

Lying in his arms it's my face you see  
There's no need to tell me baby  
I know you're in love with me

I got this feelin' baby  
I got this feelin' that you know, you know  
I got this feelin' baby  
I got this feelin' that you know, you know
