

How you plan to stop the world
I don't know the plans you screened
The brain will march away
Clipping against the wall

Lower the tone again
Youth was on your side
Pretend you were born again
Youth forgot the time

Clutching at the straws you took
The shortest one you pulled
The reconcile was tantamount
The blocked pores would never close

Lower the tone again
Youth forgot the time
Get on your knees for saviors [Repeat x4]

It's about time you embraced the cold
Hurtful hateful I'm coming for you today
Get on your knees for saviors [Repeat x4]
