

Gentle Folks

Hunter Hunted

Calling all the gentle folks, with arms in the air
Time for marching two by two so throw away your cares
Survive, just try to survive
Find the luck you're standing by in hope to combat soon
Put together, embrace yourself, hold onto your festoon
Goodbye, this is the goodbye

Callin all the animals inside, callin all the animals inside
(Hey)
Storm on the way, we forget what it's for
So hard to be brave, don't believe anymore, don't believe anymo
re, don't believe (anymore)

Calling all the gentle folks with arms in the air
Keep from marching two by two and find a way to care
Survive, just try to survive
Pine for love, your kiss goodbye, you know you'll see it soon
Put together and make yourself, hold onto your festoon
Goodbye, this is the goodbye

Callin all the animals inside, callin all the animals inside
(Hey)
Storm on the way, we forget what it's for
So hard to be brave, don't believe anymore, don't believe anymo
re, don't believe (anymore, anymore)

Storm on the way, we forget what it's for
So hard to be brave, don't believe
Storm on the way, we forget what it's for
So hard to be brave, don't believe anymore, don't believe anymo
re, don't believe (anymore)

Calling all the gentle folks with arms in the air
