

A Youthful Existence

Hunter Valentine

I Stay out late 'cause I don't wanna feel lonely
This emptiness is starting to own my anddddd
I can't get out, I can't get out
I'll meet you later at that all night diner
She's trying hard and I'm trying not to fight her and
I can't get out I can't get out.

Cause all my friends got girlfriends
Their telling me to put this thing to an end
But I just can't cause I'll be walking to a place where I can't
stand...

CHORUS

There is some place left for you
Some place caught up in their youth
There Is some place for for you
Some place good and new

I buy you drinks cause I think that you love me
It turns out that you just want the company
I'm feeling bad you're looking sad
I'm watching t.v on a late night Sunday
Thinking 'bout how I just turned you away
I'm feeling bad you looked so sad

Cause all my friends got girlfriends
Their telling me to put this thing to an end
But I just can't cause I'll be walking to a place where I can't
stand...

Chorus

And you say you can't have it
And you say you can't have it
And you say you can't have it
Any other way
But Mine
I feel
That we're losing time
and I know
you're lost
along
the way
this time, this time this time this time
