

Liar Liar

Hunter Valentine

You said we'd keep this pact forever
Polite way of laying your curse from the start
You had your hands inside my pockets
Taking away everything I own
I keep my mind straight, keep my mind straight
I keep my mind straight, keep my mind straight
I keep my mind straight, keep my mind straight
Over you

Stick around, make it right
I'm giving up a pointless fight
So cut your cards and play your hand, honestly
Stick around, make it right
You're giving up a pointless fight
So cut your cards and play your hand, honestly

Not out of 10 times you said you love me
But I smoked you out, I called your bluff
You thought your little secret saved you
They killed your game and you fell apart
I keep my mind straight, keep my mind straight
I keep my mind straight, keep my mind straight
I keep my mind straight, keep my mind straight
Over you

Stick around, make it right
I'm giving up a pointless fight
So cut your cards and play your hand, honestly
Stick around, make it right
You're giving up a pointless fight
So cut your cards and play your hand, honestly
