

ANOTHER MOMENT

Hyde

Are we stuck where we can't go back?
Are we stuck where we can't move on?
This regret that we bury deep inside
And now the memories are burying us in time

But maybe...
In another moment, in another place and time
would you feel the same if I said we'd live forever
said we'd live forever x4

Every time that we feel off track
Every time that we ran so far
From the world we created side by side

I see you here and I can't let go
I see you now and it's all I know
It is too soon to let go

But maybe...
In another moment, in another place and time
would you feel the same if I said we'd live forever
said we'd live forever x4

It is too soon to let go x2

But maybe...
In another moment, in another place and time
would you feel the same if I said we'd live forever
said we'd live forever x4

It is too soon to let go

Said we'd live forever
