

MAD QUALIA

Hyde

Answer me how it feels within
No way to know what matters
Samenai akumu ni kuchibiru kamu (Need to let go!)
You say I'm mad all around
I say I'm not, you're the one
Chi no aji ga shita

Falling together
Fukaku ochite yuku city's cry
We're falling together
Kasoku jibun sae miushinau kurai
Sashichigaedo kotae no nai
Mad Qualia

I cannot understand your views
No matter how I try to
Reisei ni narenai isshokusokuhatsu (Need to let go!)
You say I'm mad all around
I say I'm not, you're the one
Boku ga kurutteru?
The more shout it comes apart

Falling together
In this dissolving sounds of city's cry
We're falling together
In this evolving plan that's
Useless and seamless
We see the same light
Yet it differs in mind
Mad Qualia

I wanna sense what you feel
I wanna taste how it feels
I wanna take what you feel
I wanna know what is real
From here need to get out
Insane need to get out
This maze need to get out
Constrained need to get out
From here need to get out
Insane need to get out
This maze need to get out
Constrained

Falling together
Fukaku ochite yuku city's cry
We're falling together
Kasoku jibun sae miushinau kurai
Sashichigaedo kotae no nai
Mad Qualia
