

# Coast To Coast

Hyland

It feels just like yesterday when you called my name  
And I thought that I, I had everything I could ever need  
But all that's left is love  
And now I see what it really means to lose control  
The fear inside has me paralyzed  
But this I know  
That all that's left is love

Who's to say we don't have it made?  
When everything is just as it seems  
The plans we've made  
We'll give ourselves away  
And all that's left is love

We took our steps, took our time and slowly realized  
That love will spend  
It's still breakin' hearts when we're world's apart  
And all that's left is love  
As the distance grows  
Are we losin' hope?  
You're my everything  
In your embrace  
I see we're meant to chase these courageous dreams  
And all that's left is love

Who's to say we don't have it made?  
When everything is just as it seems  
The plans we've made  
We'll give ourselves away  
And all that's left is love  
And all that's left is love

And where do we go  
When these roads run coast to coast?  
And where do we go  
When these lives are not our own?  
And where do we go  
When these roads run coast to coast?  
And where do we go  
When these lives are not our own to hold?

All that's left is love  
And all that's left is love  
And all that's left is love  
And all that's left is love
