

Crying Out

Hyland

We've come so far
To make all the same mistakes
It seems so hard
To lift up our hands and pray
We see the scars
And the chances that slip away
But they're covered by grace

We're crying out for freedom

Your love is in the air we breathe
Open our eyes to the urgency
There's so much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

The plans we've made
All the maps and the strategy
Let's turn our gaze
Until it's only You we see
We'll find our way
When we finally give up the lead
It's You we need

Your love is in the air we breathe
Open our eyes to the urgency
There's so much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

We're crying out for freedom
We're singing glory and grace
We're crying out for freedom
We're singing glory and grace

Your love is in the air we breathe
Open our eyes to the urgency
There's so much more that we could be
Our lives are crying out

Your love is in the air we breathe
Open our eyes to the urgency
There's so much more that we could be
Our lives are crying out
Our lives are crying out
Our lives are crying out

We're crying out for freedom
We're singing glory and grace
We're crying out for freedom
We're singing glory and grace
