

Mesmerized

Hypnos

I am the mouth of rebel krowd
I am the voice of mesmerized
I'm living water in your kup
I am black angel - sonic God

I am mesmerized
Messenger of flood

We'll give you wings to make you fly
We'll give you will to get you high
We'll give you kourage to sing our hymn
We're in your veins - adrenaline

REF:
Hear dark riders kursing sky in purgative rain
Behold with your inner sight sekrecies of hate
Hurl away your inner fears there's nothing left to lose
Give life to your defiance to narrow-minded rules

I am the full moon of your nights
I'm shinning sword for your fights
I'm fresh air loaded in your lungs
I am black angel - sonic God

We are defenders of light
We kross far borders beyond life

Repeat REF:
Endless rivers full of blood streaming thru the times
Thousands kallous injuries, million needless krimes
Hurl away your inner fears there's nothing left to lose
Give life to your defiance to narrow-minded rules
