

# Fear of the Light

Hysterica

Crash! Another burn  
Fuck! I never learn  
Need instant attraction  
Crave satisfaction  
Grow my ego  
Feed my libido

Fear of the light  
Sheltered by night  
All the rules are overthrown  
Fear of the light  
At the break of dawn I stand alone  
Unmasked and exposed  
For all the world to see  
Fear of the light

Raw I want it all  
Strong I rose and fall  
Take for my own delight  
Stay all through the night  
Lost nowhere to turn  
Why crash and burn?

Fear of the light  
Sheltered by night  
All the rules are overthrown  
Fear of the light  
At the break of dawn I stand alone  
Unmasked and exposed  
For all the world to see  
Fear of the light

A hideaway, a haven  
I'm safe  
Say you'll stay  
Hold me close

Fear of the light  
Sheltered by night  
All the rules are overthrown  
Fear of the light  
At the break of dawn I stand alone  
Unmasked and exposed  
For all the world to see  
Fear of the light
