

# Force of Metal

Hysterica

I see a bright eye in front of me  
The world is burning around me  
A path of sins, a lonely cell  
I'm on my way to the gates of hell  
God's warning me; back away!  
But I know now this is where I belong  
I close my eyes and see the end  
I raise my hand

With the force of metal  
And the power of steel  
With the force of metal  
All the strength that I need

There is no giving up in life  
You wanna beat me throw the dice  
I see the sadness in your eyes  
Did you find love in paradise?  
Fame beauty and therapy  
You grew fat on fantasies  
Admit your crime, take a stand!  
And raise your hand

With the force of metal  
And the power of steel  
With the force of metal  
All the strength that I need

Perfect stranger  
Time is everything but I'm still waiting  
Pay the price  
Miss perfectionist  
A crash course in love  
A leap of faith  
Leave the past behind  
Make up your mind  
Follow me  
Reclaim your life  
Take control

With the force of metal  
And the power of steel  
With the force of metal  
All the strength that I need
