

# Rock n' Roll High School Murder

I Am Ghost

Crashed through the window going way too fast  
Sized up the bodies,  
Just cuts and bruises shot to the head relapse,  
It's nice to see you're standing over me, and you're not smiling  
(you're not smiling!) Taking pictures like I'm already dead  
This whole living thing is way too over rated (just relax)  
Pissed away the luck I had, a menu full of sex and drugs and poison  
Would have stopped it all just to hear them scream  
It's nice to see you're standing over me, and you're not smiling  
(you're not smiling!) Taking pictures like I'm already dead  
This whole living thing is way too over rated...  
So cover us in sheets, and move a little closer  
Our high school murder is over  
So can we rest in pieces? Just cover me in roses  
Our high school murder is over  
We had it all, then died by the gun,  
Cover me in sheets, don't come any closer now  
It really breaks my heart for you to see what I've become  
Crashed through the window just to hold your hand  
So cover us in sheets, and move a little closer  
Our high school murder is over  
So can we rest in pieces? Just cover me in roses  
Our high school murder is over  
So cover us in sheets, and move a little closer  
Our high school murder is over
