

## Down at the Front

I Am Kloot

I've got what you need  
I've got what you want  
I'll meet you at eight  
Down at the front  
Down at the front

I've heard that you called  
To find that I'd gone  
I'll meet you at eight  
Down at the front  
Down at the front

This town's got too small  
for all of us here  
so we crawl the walls  
till we disappear  
we disappear

I've got what you want  
I've got what you need  
down at the front  
just you and me  
just you and me  
just you and me  
down at the front  
down at the front  
down at the front
