

Burn It All Down

I Can Make a Mess Like Nobody's Business

Hyperasthesia the pain is so cold
But words like this don't exist in my life
I have to come to grips with the past in my mind
Before you burn it all down
Burn it all down
Magna Cum Laude would never define me
but words like this don't exist in my life
I have to come to grips with the past in my mind
Before you burn it all down
Burn it all down
Words like this don't exist in my life
I have to come to grips with the past in my mind
Before you burn it all down
