

The Devil You Know

I Fight Dragons

You pause and look around, no shelter to be found
A circle swarming as they storm onto the dance floor

Too late for backing down, you went and drew a crowd
And now they're standing there demanding what they came for

Maybe you're having second thoughts
Maybe your stomach's in knots
Still you wanna give it all you got
Well then I guess you better

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

They're all watching now
Better show 'em how
Dance with the devil you know
And get loud

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

Nothing left to lose
Go grab your dancing shoes
Dance with the devil you know
And break through

The crowd is into you, your blood is pumping through
No self-defeating theme repeating in your head now

You smile and take a breath, check if there's something left
And when you find it you're reminded what it's all about

Maybe you want to back down
Maybe you want to bail out
Maybe just one more round
And one more time you better

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

They're all watching now
Better show 'em how
Dance with the devil you know

And get loud

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

Nothing left to lose
So grab your dancing shoes
Dance with the devil you know
And break through

Nobody knows you better than your demons so
Whatever you believe it's now or never
Time to take 'em dancing

Nobody knows you better than your demons so
Whatever you believe it's now or never
Time to take 'em dancing

Nobody knows you better than your demons so
Whatever you believe it's now or never
Time to take 'em dancing

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

They're all watching now
Better show 'em how
Dance with the devil you know
And get loud

Drop into the flow
Let your body go
Dance with the devil you know
Or go home

Nothing left to lose
So grab your dancing shoes
Dance with the devil you know
And break through

Nobody knows you better than your demons so
Dance with the devil you know
Or go home

Nobody knows you better than your demons so
Dance with the devil you know
Or go home

Nobody knows you better than your demons so
Dance with the devil you know
Or go home
