

# Chaos in Motion

I the Mighty

I say we start again  
Far from this cold apartment  
Find what it is to be alive  
Anarchy is a friend  
I've grown to become close with  
We'll set fire to all we leave behind

So grab your sweater and my keys  
Take my hand and breathe in deep  
We've got a long way to ride

Don't look down, all the bridges are crumbling  
The car's out of gas, so run fast (so run fast)  
Feet on the ground in this city that's burning  
We'll find our way out

Chaos in motion  
Chaos in motion  
Chaos in motion  
Chaos in motion

Emptied the bank accounts  
Felt good to finally cash out  
Told my old boss to f\*ck himself  
Let's push that car in the ocean  
Fall back and take in the moment

This life is meant for no one else

So grab your sweater and my keys  
Take my hand and breathe in deep  
We've got a long way to ride  
Leave your make up and your phone  
Watch them all go up in smoke  
And let it burn through the night

Don't look down, all the bridges are crumbling  
The car's out of gas so run fast (so run fast)  
Feet on the ground in this city that's burning  
We'll find our way out

Chaos in motion  
Chaos in motion  
Chaos in motion  
Chaos in motion

Follow the sound  
Of my voice as it guides you  
I won't let them find you, no way  
I look around  
My world is nothing without you  
I won't let you down
