

Good Worker

iamamiwhoami

You make a neat and tidy house,
a good worker does
A pinion of labours men
as capable as trust

From another point of view,
come see in the light too
Keeping you so far away
Confident, we know you can

Looking at your little mind
Looking for some time and space
Ready for some further use
Denial is a virtue

I make a good and steady friend,
a companion through life
But who am I, when all I am
is your designated wife?

From another point of view,
come see in the light too
Keeping you so far away
Confident, we know you can

Looking at your little mind
Looking for some time and space
Ready for some further use
Denial is a virtue

From another point of view,
come see in the light too
Keeping you so far away
Confident, we know you can (Keeping you so far away)

Looking at your little mind (Confident, we know you can)
Looking for some time and space
Ready for some further use
Denial is a virtue

Take me where I'm not to find
Where you're taking me
