

Move your hand
South of the waistline
Let your head fall back
I will watch
Your body shiver
As blood rushes us high

Leave a little mark
A contribution
As you get down on your knees
While we're in the dark
You know how to use me
Now tell us how you feel

Leave a little mark
A contribution
As you get down on your knees
While we're in the dark
You know how to use me
Now tell us how you feel
