

# Friends

Ian Dury

When Freddy Frost was in my soul  
And Tommy Tear was in my eye  
Phillippa friendship took my hand  
Said, "Baby don't cry"

When Tessie Trouble's on patrol  
And Suzie Sadness makes you blue  
Let Lennie Love come to your door  
And pal up with you

Friends are something special  
Friends are all we need  
Friends with one another  
I like you very much indeed

What Peter Panic can't put down  
And Nelly Nasty can't destroy  
When Harry Happy says, "Hello"  
To Jennifer Joy

Friends are more than precious  
Friends are guaranteed  
Friends with one another  
I like you very much indeed

Friends are more than special  
Friends are all we need  
Friends are so important  
I like you very much indeed
