

# Superman's Big Sister

Ian Dury

'Till I met her, I thought I knew the answers  
I thought a bit of treatment was all a body needs  
I'll take you where the haps are  
All the handsome chaps are  
Squeeze you 'till I make your feelings bleed

She put me right in under fifteen minutes  
She could have had my things off, so sadly was I raised  
I had a lot to learn, dear  
If I'd gone on the turn, dear  
It wouldn't be surprising nowadays

You know she's Superman's big sister  
Her x-ray eyes see through my silly ways  
Superman's big sister, superior skin and blister  
It doesn't seem surprising nowadays... yeah!

Superman's big sister  
Superman's big sister  
Superman's big sister  
Superman's big sister  
I said she's Superman's big sister  
It doesn't seem surprising nowadays

And now I've had the sense to keep her friendship  
And though I nearly miffed it in many little ways  
The story's got no sequel  
'Cos me and her are equal  
Is that so surprising nowadays?

Because she's Superman's big sister  
Her x-ray eyes see through my silly ways  
I said she's Superman's big sister, his grown up skin and blister  
er  
Is that so surprising nowadays?
