

# Somethin's Goin' On

Ian Hunter

The spirit of war is all around us  
'N' everybody knows somethin's goin' on

Fasten your seat belts - say goodbye to your mothers  
Cos everybody knows somethin's goin' on

Nuclear missiles - cover to cover  
Everybody knows somethin's goin' on

The world is a subway - all the leaders are muggers  
'N' everybody knows somethin's goin' on

Well I say  
Roll up to the party - welcome to the show  
We'll make you live in fear - then we'll make you disappear  
Somethin's goin' on 'n' everybody knows

What you got - what you got  
Everybody knows somethin's goin' on  
Most people got nothin' - a few got the lot  
'N' everybody knows - it's still goin' on

Well I say  
Roll up to the circus - welcome to death row  
Just do what we say - then we'll blow you all away  
Somethin's goin' on 'n' everybody knows

What about hunger... are they just another number?  
We're all an endangered species  
'N' everybody knows - it's still goin' on

Well I say  
Welcome to Thanksgiving - what we reap is what we sow  
We'll watch you die in vain from the safety of our plane  
Somethin's goin' on 'n' everybody knows
