

# Nothing Too Serious

Icehouse

Twenty storey buildings coming down on me  
Mountain ranges sliding into the sea  
Rivers of blood running red  
I've got a broken heart and a broken head (head head head)

I've got a broken heart and a broken head

I had a little accident  
Nothing too serious  
Take a look at this place take a look at this mess  
Nothing too serious  
If you close your eyes it may go away  
Nothing too serious  
We can do it again some other day  
Nothing too serious

Well I shook myself and I feel out of bed  
I can't remember a thing or was it something I said  
And I don't know my name and I don't know my place  
And there's a crack in the mirror, cracking my face (face face face)

Heeey!

I had a little accident  
Nothing too serious  
Take a look at this place take a look at this mess  
Nothing too serious  
If you close your eyes it may go away  
Nothing too serious  
We can do it again some other day

Nothing too serious

Nothing too serious (is that right?)
