

# Leave Me Let Me Go

Ida Maria

If I ever find a joyful moment one of these days,  
my dear friend I will celebrate.  
If I find a way to make these days pass on and go away  
my dear friend I will celebrate.

cause demons sneak in everywhere I go  
rain will never ever stop to fall  
winter time is tired restless old  
And a cold arcade has captured my days

Leave me leave me leave me let me go  
leave me leave me leave me let me go

my friend tell me all your stories  
tell me all the tales you know  
some say every single light someday burns out say it isn't so  
some say time is no friend  
I don't listen to them  
cause you tell me stories that never end

cause demons sneak in everywhere I go  
rain will never ever stop to fall  
winter time is tired restless old  
And a cold arcade has captured my days

Leave me leave me leave me let me go  
leave me leave me leave me let me go  
leave me leave me leave me leave me  
leave me leave me leave me let me go  
demons sneak in everywhere I go

rain will never ever stop to fall  
winter time is tired restless old  
And a cold arcade has captured my days

Leave me leave me leave me let me go  
leave me leave me leave me let me go  
Leave me Leave me Leave me  
Leave me Leave me Leave me let me go  
Go
