Satan Polaroid

The sea is never calm It always blows and knows it too But I'm alone I'm alone I'm alone in the satan polaroid Yeah!, yeah!, yeah! I said it always seems kinda strange And the drinking has got under age I said it always seems kinda strange like a sad happiness This is happiness and I fall You said you feel so alone Dont make me feel so alone You said you feel so alone Don't make me feel so alone What makes you feel so alone? Dont make me feel so alone So don't feel alone The sea is never calm It always blows and knows it too But I'm alone I'm alone I'm alone in the satan polaroid Yeah!, yeah!, yeah! I said it always seems kinda strange And the drinking has got under age I said it always seems kinda strange like a sad happiness This is happiness and I fall You said you feel so alone Dont make me feel so alone You said you feel so alone Don't make me feel so alone What makes you feel so alone? Dont make me feel so alone So don't feel alone I need to care about anything I need to care about something I need to care about something I look outside, I look outside, I look out Yeah!, yeah!, yeah! I said it always seems kinda strange And the drinking has got under aged I said it always seems kinda strange like a sad happiness This is happiness and I fall You said you feel so alone Dont make me feel so alone You said you feel so alone Don't make me feel so alone What makes you feel so alone? Dont make me feel so alone So don't feel alone You see that your only young once in this world You see that your only young once in this world You see that
