You are a moron
I'm glad to be here
Seeing the sight of you
Smelling the smell of you

You most deplorable glaring example Of a degenerate narcotic influence My seething hate is driving me nuts What can I do to obliterate you

I snub you
I really hope you're one of a kind
You don't care who you brutalize
You are a bully plain and simple

You are a beast you are a pig You've been a pig for long enough now I'm making my move I'm making an end to you

I snub you
And when I snub
I really snub
I snub you finally, forever

Is she really going out with him?
Now is the time
I'm playing my ate
I'll give you a mouthful you can't swallow

Unquestionably I've been lacking in taste You're being cheerful but not for long Your Mum and Dad they sure made a mess You're going to look like watercress

When I snub you
He snubs you
We snub you
Dogs snub you
I snub you
