## **Tuff Baby**

Psst, psst, hey girl Just come here, come on, come here I love your hair Your pearly smile Your icing scan Society's vile Insect cars Horny men from Mars I love you, tuff baby I love you, tuff baby You've know the score

For a while now Your dad don't care Your mom's aware Your hands are new I wonder what they'll do I love you, tuff baby I love you, tuff baby

There's chaos in the old suburbs And downtown too they got the blues But you'll survive With a hard glint in your eyes I love you, tuff baby I love you, tuff baby I love you I love you, tuff baby [Repeat: x3] **Iggy Pop**
