Where They Talk

i swear is what i think you said and now i know i know what you mean and where you talk about is where i want to go now

i wanna be there so i can know you so i can know you

i know when you are around i care only about what i know you can do because i know i can't because i know i can't

i know i can't go there
i know what you'd think
i know what they would think

i want to go down

where i hear my name i wanna know what they say what they think about me about me
