

All I Need

iiO

I wish you knew what it was like to see your eyes
For you to know you should imagine paradise

Floating in space, riding a rocket
I give you a taste, sweeter than sunset
Say that it's fate, at the right time, at the right place

Love come and get me
I've been so ready
It's called destiny
Your love's all I feign

All I, all I feign
All I, all I feign
All I, all I feign
All I feign

I feel the flame in me each time I hold your face
So punish me for wanting all the love we make

Somebody shake, somebody pinch me
Honey, don't wake, keep only dreaming
Say that it's fate, at the right time, at the right place

Question so deep, help me I need you, I feel so much
Touch me and keep me for yourself, just you or no

Call me a fiend, say that I'm extreme
You're what I need, that's all I can think
Say that it's fate, at the right time, at the right place
