

Doomsday Was Written in an Alien Bible

III Bill

[Ill Bill]

I've seen the Seven Headed Dragon talking to the Eagle
The two headed snake illustrates a caution to the people
Electronic fog, alien bibles, crop circles at the sand in Cairo
Like hits of '76 demanding pyro
Human history's fifty percent catastrophe
It's actually the arms race between the facts of anarchy
The secret to success is believing that you succeeded
Is more than an achievement, it's as important as you breathing
But sometimes it's one and the same, but who's running the game
All we'd ever say is they, they know it's fun to complain
_____ that cause the people to riot and flip
The way I think, I've been classified as violent and sick
I'm like a time bomb the CIA designed me to tick
Designed me to hit over to ____ to buy me a brick
These mother ships hit out radar, the sky's in the blip
The entire sky is eclipsed, it's like the size of my dick

[Chorus]

[Ill Bill]

I leave the face of your society with buck-50 scars
Sour diesel splits from weed jars and flip police cars
Pour holes the size of grapefruits through riot gear
Bloody footprints from jaw that falls in in your floor, we pion
eers
Take fools to higher tiers, elevate to a higher learning
To a talk of bush on the mountains with fires burning
Commandments are carved on stone with lightning bolts that thro
wn
_____ to spark the dome, now frightening results unfold
Dragons equal snakes and aliens, captured we keep all kings of
areas
Constellations of Aries
Quoted few letters, numbers and symbols that transmit
Pulses and whistles, and activate hundreds of missiles
hundreds of killers with multiple pistols
While these name brands reverse engineer spacecraft and make tr
illions
They made a cure for AIDS and ceased production
While the poor die infesting disease corruption
[Chorus]
