

Severed Heads of State

III Bill

[ILL BILL]

Let's play Dungeons & Dragons on mushrooms & acid
Like Ricky Kasso, smoke angel dust & kill these hippie assholes
Light the chemicals ablaze - Relevance appraised
Venomous exchange of terrorist acclaim - Inheritance of hate
Severed heads of state in a parade of chanting Satanists
Acts of heinousness are sprinkled on our plates like bacon bits
Swallow while you raise your fist in protest
Your true emotions camouflaged like God
It's convenient like Amazon.com
& we're all guilty as charged or just simply involved
Often brainwashed by quick money, loose women & cars
But maybe that's the way we're meant to be
Ignorant mutants for nukes
Trapped in a matrix ruled by shooters in suits
I think we're more than that, I'll quarterback
Time to clean our house & take our corner back
Put a message in the music - This is more than Rap
Or at the very least, it could be & it should be
So I gotta pay it forward cos I learned alot from Chuck D
& Henry Rollins - College was an empty promise for me
Music's influence was way more honest to me
Or maybe that's just my excuse
Because I dropped outta high school at 14 to pursue music
It was all a dream

[EL-P]

Live in a still from the worst movie ever's worst scene
Antagonists stand proudly in the stench of all their dirt sheen
Looks like God and them forgot to take their happy pills again,
scream
Cos every sheisen eater from your nightmares getting top cream
Mud is the name you been given - Shit is for dinner
Your average beginner might wanna take a fetal position
I feel that, nothing's promised but static & dirty conscience
Or waking up like the dawn is the start of another problem that
's real fact
Trust me the dustedest type of function's you having to sit the
re
Grumbling while dummies run the discussion
So I'm a master of the numb it down drown the voices choice
Every drug invented got attention from me, desperate to avoid t
he noise
& I never learned a fuckin thing except I don't know fuckin shi
t
All that I ever had was madness & the luck to get the chance to
spit & I'll take that
Cos by my calculations that's as good as any day job

Thought I told you that I'm fucked, why you suprised I always s
tay hard
