

# War Is My Destiny

III Bill

[Verse 1: Ill Bill]

They killed my entire family  
Murdered and tortured, raped and pillaged  
I was only five and I was the only surviving witness  
My entire village burnt to the ground  
He wore a serpent in his crown  
Unhappily committed murder with a frown  
In an army of black-hooded fiery-skulled generals  
And a sorcerer that could cast spells that'll change your genitals  
Held me in slavery till I turned eighteen  
Killed my slave master, five years later became king  
And I slain dragons and ate stakes during famine  
Had the seeds of war planted in a dirty tavern  
Had the seeds of presidents killed in a burst of anger  
And had their parents bleed to death on the floor of a dirty bathroom  
I watched their palaces burn, I seen the ashes of my comrades  
Returned to their family in an urn  
While a proud child remembers his father that died  
The cycle continues with vengeance alive in his mind

[Chorus: Max Cavalera]

Refuse, resist, war is my destiny!  
Desire unleashed, war is my destiny!  
Chaos, A.D., war is my destiny!  
Under a pale grey sky, war is my destiny!

[Verse 2: Immortal Technique]

Yeah, yeah, I was an angel before the thud of the stars fell  
Cast with the sternum from Satan into the pit of hell  
Our beloved leader forced to be a bottom-feeder  
The great deceiver that promised victory over the monkey lovers  
We took a vulturous structure and traitor, fell upon em  
We ripped his skin off and crowned a new son in the morning  
A new president to lead our corporation  
The vengeance on God and Heaven's domination  
But I seduced the daughters of man and made the Nephilim  
I demanded human sacrifice from the rest of them  
I became the spirit that tortured and protected them  
And I built them the tower of language that collected them  
And then the Lord cried, water falling out from his eyes  
And my children died drowning in the tears from the sky  
And it was then that Satan crawled back to me with a plan  
A design for the ultimate corruption of man  
See back then we used to set the chosen ones on fire  
You really think God only sent a single messiah?  
And so we allowed the birth of many prophets on earth  
And since the followers were human they were born with a curse  
They began to claim superiority to their brothers  
And for eighty-five thousand years conquered each other  
And when they prayed before battle they were praying to me  
Killing in God's name cause war is my destiny!

[Chorus: Max Cavalera]

Refuse, resist, war is my destiny!  
Desire unleashed, war is my destiny!  
Chaos, A.D., war is my destiny!  
Under a pale grey sky, war is my destiny!
