

## Too Blind To See

Illdisposed

Tell all you've learned  
Pass it onto your friends  
Demons, pleasure  
Eyes shut, but still open  
Too blind to see me

By calling out your name  
I will make you hear or feel

It wasn't always so  
We worked together  
Breaking your trust  
Broke also us

Too blind to see me  
You're too blind to see me

Forget about the past  
Focus on the future and me
