

Can't Stay Away

IM5

[Dalton]
I'm headin' on track, I'm turnin' on back,
'cause honey don't know she complete my life.

[Bella]
'Cause I wasn't all in, I'm done with all that,
and now I gotta let him know.

[Will]
Said you never lookin' back, but gimme one try,
you say I'm still the same, but I changed my path.

[Bella]
You're better than the best, forever no lie,
and I don't wanna be here lonely.

[All]
I don't wanna stay away, for another second, baby.
Lemme, lemme say everything,
you're the only one worth fighting for.
And I won't throw my promises away, yeah.
I don't wanna stay away, I don't want nobody, but you.

[Cole]
You say you don't buy, how hard I'm gonna try,
I'll never give up, gonna change your mind.

[Bella]
With a little romance, and maybe you'll find,
that now I'm gonna make show.

[Dalton]
No we're never lookin' back, just leave it in the past,
I'll never be that same, 'cause you changed my path.

[Bella]
You know I love you best, forever no lie,
and I don't wanna be here lonely.

[All]
I don't wanna stay away, for another second baby,
Lemme, lemme say everything,
you're the only one worth fighting for.
And I won't throw my promises away, yeah.
I don't wanna stay away, I don't want nobody, but you.

[Bella]
And if I have to live, in a lifetime without all the ways you make me feel,

[Dana]
Then I'd have to lose my mind I'd be so broken into pieces over you.

[Gabe]
See I can't stay away from you,
I can't erase the two of us from my mind.
Whenever I try, it's like a backfire,
Blast from the past, I can see through.

[Bella]
Mirror, mirror on the wall,
How'd I ever let you fall?
I guess I need my baby (baby).
Woah, woah, woah, woaaaaah!

[All]
I don't wanna stay away, for another second baby,
Lemme, lemme say everything,
you're the only one worth fighting for.
And I won't throw my promises away, yeah.
I don't wanna stay away
you're the only one worth fighting for.
And I won't throw my promises away, yeah.
I don't wanna stay away, I don't want nobody.

I don't wanna stay away, I don't want nobody but you.
