

We take a hit of anything  
To escape it all, we're suffocating  
The sharpened blade of reality  
Sometimes, I wanna hurt me  
I know it's hard to hear, but I'm  
Waitin' for the new year  
Don't wanna waste my life chasin' white  
Try to swim towards the light

Comin' up for air in the deepest of the deep ends  
I thought I learned it all, but boom, the plot thickens  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety  
La-la-la-la-la-la-la-la  
Got so tired of feelin' down  
La-la-la-la-la-la-la-la  
Well, take a look what I've become  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety

Wanna make you proud of me  
But slowly, I, I'm killing me  
Playing with chemistry  
Floating to the ceiling  
Always rock 'n' roll 'til you die, you know, you been flyin'  
Now I'm shaking at night, sweating the sheets out  
Grinding my teeth out  
But still the world will glamorize it all

Comin' up for air in the deepest of the deep ends  
I thought I learned it all, but boom, the plot thickens  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety  
La-la-la-la-la-la-la-la  
Got so tired of feelin' down  
La-la-la-la-la-la-la-la  
Well, take a look what I've become  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety

If I could leave one thing for you  
It's exactly what not to do  
I'm so proud of you  
Take a look what I've become  
Oh, take a look what I-

Comin' up for air in the deepest of the deep ends  
I thought I learned it all, but boom, the plot thickens  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety  
La-la-la-la-la-la-la-la  
Got so tired of feelin' down  
La-la-la-la-la-la-la-la  
Well, take a look what I've become  
Sleepin' with giants, I'm tip-toein' quietly  
Feelin' it all, this sobriety
