

Right Amount Of Wrong

Imelda May

I like a little bit of bad in a good, good man
A little bit of mad can be a whole lotta fun
When you get mean babe, your second to none
Outta 7 billion beings, you are my one
You got me good, yeah you got it going on
You do it for me, your the right amount of wrong

You have the edge on a world that's round
You are lost but don't wanna be found
You stand alone when your in a crowd
You don't dream but you scream out loud
You got me good, yeah you got it going on
You do it for me, your the right amount of wrong

A pinch of salt goes good with sweet
A hint of pain is great with a treat
Just like a cute dog baring it's teeth
I love a little strange and I dig a bit of a freak
You got me good, yeah you got it going on
You do it for me, your the right amount of wrong

Your bad is good and good you're not
Your wicked is great and your cool is hot
You got me good, yeah you got it going on
You do it for me, your the right amount of wrong

Yeah, you got me good, got me all the way
This girl could fall, could be led astray
Your kiss is soft but not too weak
You keep me on my toes then you sweep me off my feet
You got me good, yeah you got it going on
You do it for me, your the right amount of wrong

You got me good, yeah you got it going on
You do it for me, your the right amount of wrong
