## **Deliverer Of Evil**

## **Immolation**

Shadow Soldier Silent Predator

Take down the master
Take down the throne
Bring them their heads
Send a message to the world

Sinister Warrior Faceless Killer

Take out the king
Take out the kingdom
Paralyze their power
Send a message to the world

Gave you the power Gave you control Fail the people And you will fall

Faiths collide, social unrest Clear the air, force the change Dusk will bring the serpent's kiss Never see another dawn

Take down the master
Take down the throne
Bring them their heads
Send a message to the world
