

God Complex

Immolation

Sowing the seeds of extinction
Seplicating the natural order
Pandemic scourge of humanity
Now growing to its fruition

Breeding disease and weakness
Creating a world of dependence
Planned for mass intake
Ingesting the fruits of malignant design

Man becomes god
Manipulates life
Poisons the world
Cultivates death

Mass genocide, human revenue
Sprinkling misery into their bodies
Feeding their hunger, feeds our agenda
Don't ever let them know they're slowly dying

Man becomes god
Manipulates life
Poisons the world
No chance of survival
