

# In My Kingdom Cold

Immortal

Forth after dark, a time I do know  
In my kingdom I enter to my own world  
Open the gate of a mountain dark  
Rising with the shadows, a dark world made for me  
Black my mind, black my heart  
In my kingdom I enter to my own world  
Open the gate of a mountain of black  
Rising with the shadows a black world made for me  
In my kingdom cold at the mountains of madness  
Unending grimness and these mountains which I heart  
In my kingdom cold at the mountains of madness  
Unending grimness, this kingdom is mine  
Frozen and cold, an existence I know  
In my kingdom cold, I enter this condition  
Open the gate, there's a mountain of ice  
Rising with the shadows, a cold world made for me  
A cold world made for me  
Forth after dark, a time I do know  
In my kingdom I enter into my own world  
Open the gate of a mountain of dark  
Rising with the shadows, a world truly made for me  
And here we go again  
In my kingdom cold at the mountains of madness  
Unending grimness and these mountains which I heart  
In my kingdom cold at the mountains of madness  
Unending grimness, this kingdom is mine  
This kingdom is mine
