

# Within the Dark Mind

Immortal

[Music: Abbath/Horgh]

[Lyrics: Demonaz]

The dark nights landscapes and only me  
Seas and rivers high  
Deeps and waterfalls  
Massive mountains  
Powerful mountains  
Still only me  
Where bergs and peaks throne  
Cold beneath the moon

At the works of my gods  
I glaze my heart to be  
The nature of dark  
Awake my soul to see  
At the works of my gods  
I glaze my heart to be  
With an evil mind  
...flamed my heart will be

My quest reverse the time... within the dark mind  
Strength in it I find... within the dark mind

The dark nights horizons and only me  
The shunning moonlit lights  
The paths to forests wild  
Massive sky powerful sky  
Still only me  
Epic and diabolic... swallowing the gloom

At the works of my gods  
I glaze my heart to be  
The nature of dark  
Awake my soul to see  
At the works of my gods  
I glaze my heart to be  
With an evil mind  
...flamed my heart will be

The dark minds landscaped and only me  
Walls of time benight...  
A world I realised  
Massive thoughts powerful thoughts  
Still only me  
A deepening of a shadow  
By the dimming of the sun
