

Swoon

Imogen Heap

Your name in lights
Vibrating to your ringtone
My world begins to dance
We discuss important stuff
The rendezvous is set up
To catch a film and dinner

Stuck in a cinema or saving me from a car
You'll suddenly realize and fall into my arms
Working you undercover, softly slowly got ya
Any moment now you're gonna swoon into my arms

The same you, the same me
Spoon feeding the ground dark soil
A friend too good to go there with
(Shake it up and get it on)
Oh well I know you know you do
And maybe you've not said in so many words
You've always got your reasons
You're right, little know it all

Stuck in a cinema or saving me from a car
You'll suddenly realize and fall into my arms
Working you undercover, softly slowly got ya
Any moment now you're gonna swoon

Let me be the great Scott,
Tip top pit stop in your ocean!
I could be the shipmate what got you down and dirty with the lotion

This is where I was going to sing your name
Over and over again
But I chickened out in the final minute
Cause I thought you probably wouldn't like it

Swoon and fall into my arms

Let me be the great Scott,
Tip top pit stop in your ocean
I could be the shipmate what got you down and dirty with the lotion!

Let me be the great Scott,
Tip top pit stop in your ocean
I could be the shipmate what got you down and dirty with the lotion!
