

# Everything's Fake

## Impending Doom

Get out get out of your own head  
The toxic thoughts poison your mind  
Fed by fed by this twisted culture  
That's never satisfied

Get out get out of your own head  
The toxic thoughts poison your mind  
Fed by fed by this twisted culture  
While we kill ourselves trying

We're addicted to a false image  
Nothing's real but forced gimmicks  
Don't listen to a word they say  
Controlling you like drugs in our veins

We've become obsessed  
We depend on it  
Believing all the lies

We've become possessed  
By our ignorance  
Choking on what we despise

Choking on what we despise

Take back control (take back control) of your own life  
Don't listen to a word they say  
Controlling you like drugs in our veins

Everything's fake  
In this day and age  
When there's no faith  
Who will you trust  
Everything's fake  
In this day and age  
When there's no faith  
Who do you trust

Drop it!

Get out get out of your own head  
The toxic thoughts poison your mind  
Fed by fed by this twisted culture  
While we kill ourselves trying
