## **Surface**

**Imperative Reaction** 

So I gave up on trying to find a way To an answer that doesn't exist Barred in by the silence Constrained to my abyss And you say "There's always a way out of this maze You just have to find it" You say "It's just a matter of time until - " But I don't believe it

There's no way to surface now The strain is far too strong to take From this prison there is no escape

So I gave up on trying to find a way Through an exit that I sealed shut Locked into the silence Poisoned by the rust And you say "There's always a way out of this maze You just have to find it" You say "It's just a matter of time until - " But I don't believe it

There's no way to surface now The strain is far too strong to take From this prison there is no escape

There's no way to surface now The strain is far too strong to take From this prison there is no escape

So quiet now The waves drown out what once was loud And I don't recall The sound anymore

There's no way to surface now The strain is far too strong to take From this prison there is no escape

There's no way to surface now The strain is far too strong to take From this prison there is no escape

There is no escape...
