

Soul Apart

In Legend

The people anxious to avoid mistakes
Until the weakest is about to break
Then they're pretending being so amazed
At how some people never keep their face

They for sure feel that way:

Got a broken heart
Got a broken soul
Got to stand apart
In that deep black hole!

Human
Error
They for sure feel that way:

Got a broken heart
Got a broken soul
Got to stand apart
In that deep black hole!

And my heart -
Don't want to stand no more
Apart - no...
No more away -
Don't wanna stand - no
No more
No longer more
Apart

No one stands apart!

Got a broken heart
Got a broken soul
Got to stand apart
In that deep black hole!
