

To New Horizons

In Legend

What if the world was ending tonight?
And all the stars burned up in the sky?
Would you be scared and run for your life?
Or have a last look into my eyes?
Come, take my hand and watch them collide
They shine a light
on new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind
Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off... And turn your step into a leap!

Come, let me take you into the night!
We're riding straight into the storm's eye!
Just follow me...
Watching angels trying to hide
Tickling clouds 'til they turn black to white
We're on top of the world as we long
For new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind
Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off... To new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind
Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off... To new Horizons!

Come on! Wohoo...
Come on - Jump off - Let's turn your step into a leap!
Yeah!
We're on top of the world as we long
To new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind
Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off - To new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind

Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off - To new Horizons!

Let's jump into the unknown
Jump off into the sea!
We're sailing close to the wind
Welcome aboard - feel free!
We seize our own destiny
We push the boundaries
Come on - Jump off - To new Horizons!
