

Respect My Solitude

In The Woods...

Space gazing
Passing the time of life
People watching
Their dreams mine to behold
Respect my solitude
Content in my own mind
My energies renewed
The present redefined
Time wasting
Hours pass too slow
I'm waiting
For the journey to begin
Respect my solitude
Content in my own mind
My energies renewed
The present redefined
Frustration, prisoner to schedules
In chains, my freedom essential
Days wasted, the time will not return
Life-changing
Each time something new
Contemplating
Which path to tread
Respect my solitude
Content in my own mind
My energies renewed
The present redefined
