

Come Away With Me

Incognito

(Yes I would, you know I would)
So many times I've heard it said
If you had the chance to do it again
Would you take the same road
Yes I would, you know I would
I wouldn't change a single thing
You got the power to make my heart sing
For me the search is over
I know we belong together

[Chorus]

Here and now I have come to realize
A life without your love is a sunless garden
You're my greatest joy
Come away with me, we can make it to the top

There's no greater love, than the one I'm feelin'
Come away with me, don't you let this feelin' stop
There's no greater love, there's no greater feelin'
Yesterday's gone tomorrow is blind
What's up ahead what will I find
Am I prepared to take a chance
Yes I would, you know I would
I know the joy that love can bring
In you I've found the real thing
My senses swim with pleasure
I want it to last forever

[Chorus]
