Out Of The Storm

Incognito

It's hard to believe, that a year's gone by Feels like yesterday Strange as it seems, I knew back then, I`d feel this way today The road is long, there`ll always be wild winds blowing (One thing you gotta know) Beyond the clouds there's nothing but blue skies Hey, hey, hey, hey Out of the storm, come on in out of the rain Out of the storm Out of the storm, come on in out of the rain Out of the storm You try to slow down, but you loose control, like a runaway A voice in your mind, lets you know, this feeling`s here to sta У Don't turn around, look straight up ahead, keep movin' (One thing you gotta know) Beyond the clouds there's nothing but blue skies Blue skies Got so much to give you, I got so much to give you Got so much to give you, I got so much to give you Baby The road is long, there'll always be wild winds blowing (One thing you gotta know) Beyond the clouds there's nothing but blue skies Baby

Got so much to give you, I got so much to give you Got so much to give you, I got so much to give you
